Parker "51"

The Parker "51" justly deserves its reputation as the world's most famous pen, for it has long been the choice of discriminating people. From the Parker-designed hooded nib to the gleaming Arrow clip, Parker "51" quality is expressed in its slim, graceful design and by the meticulous care with which it is made.

The Parker "51" pen features the exclusive, easy-filling Aero-metallic ink system with Pil-glass reservoir that has a life expectancy of over 30 years. Its 14K gold tubular nib is tipped with precious Platinum, and Electro-Polished to give you the world's smoothest writing point. The Parker "51" is a pen that is given and received with pride.

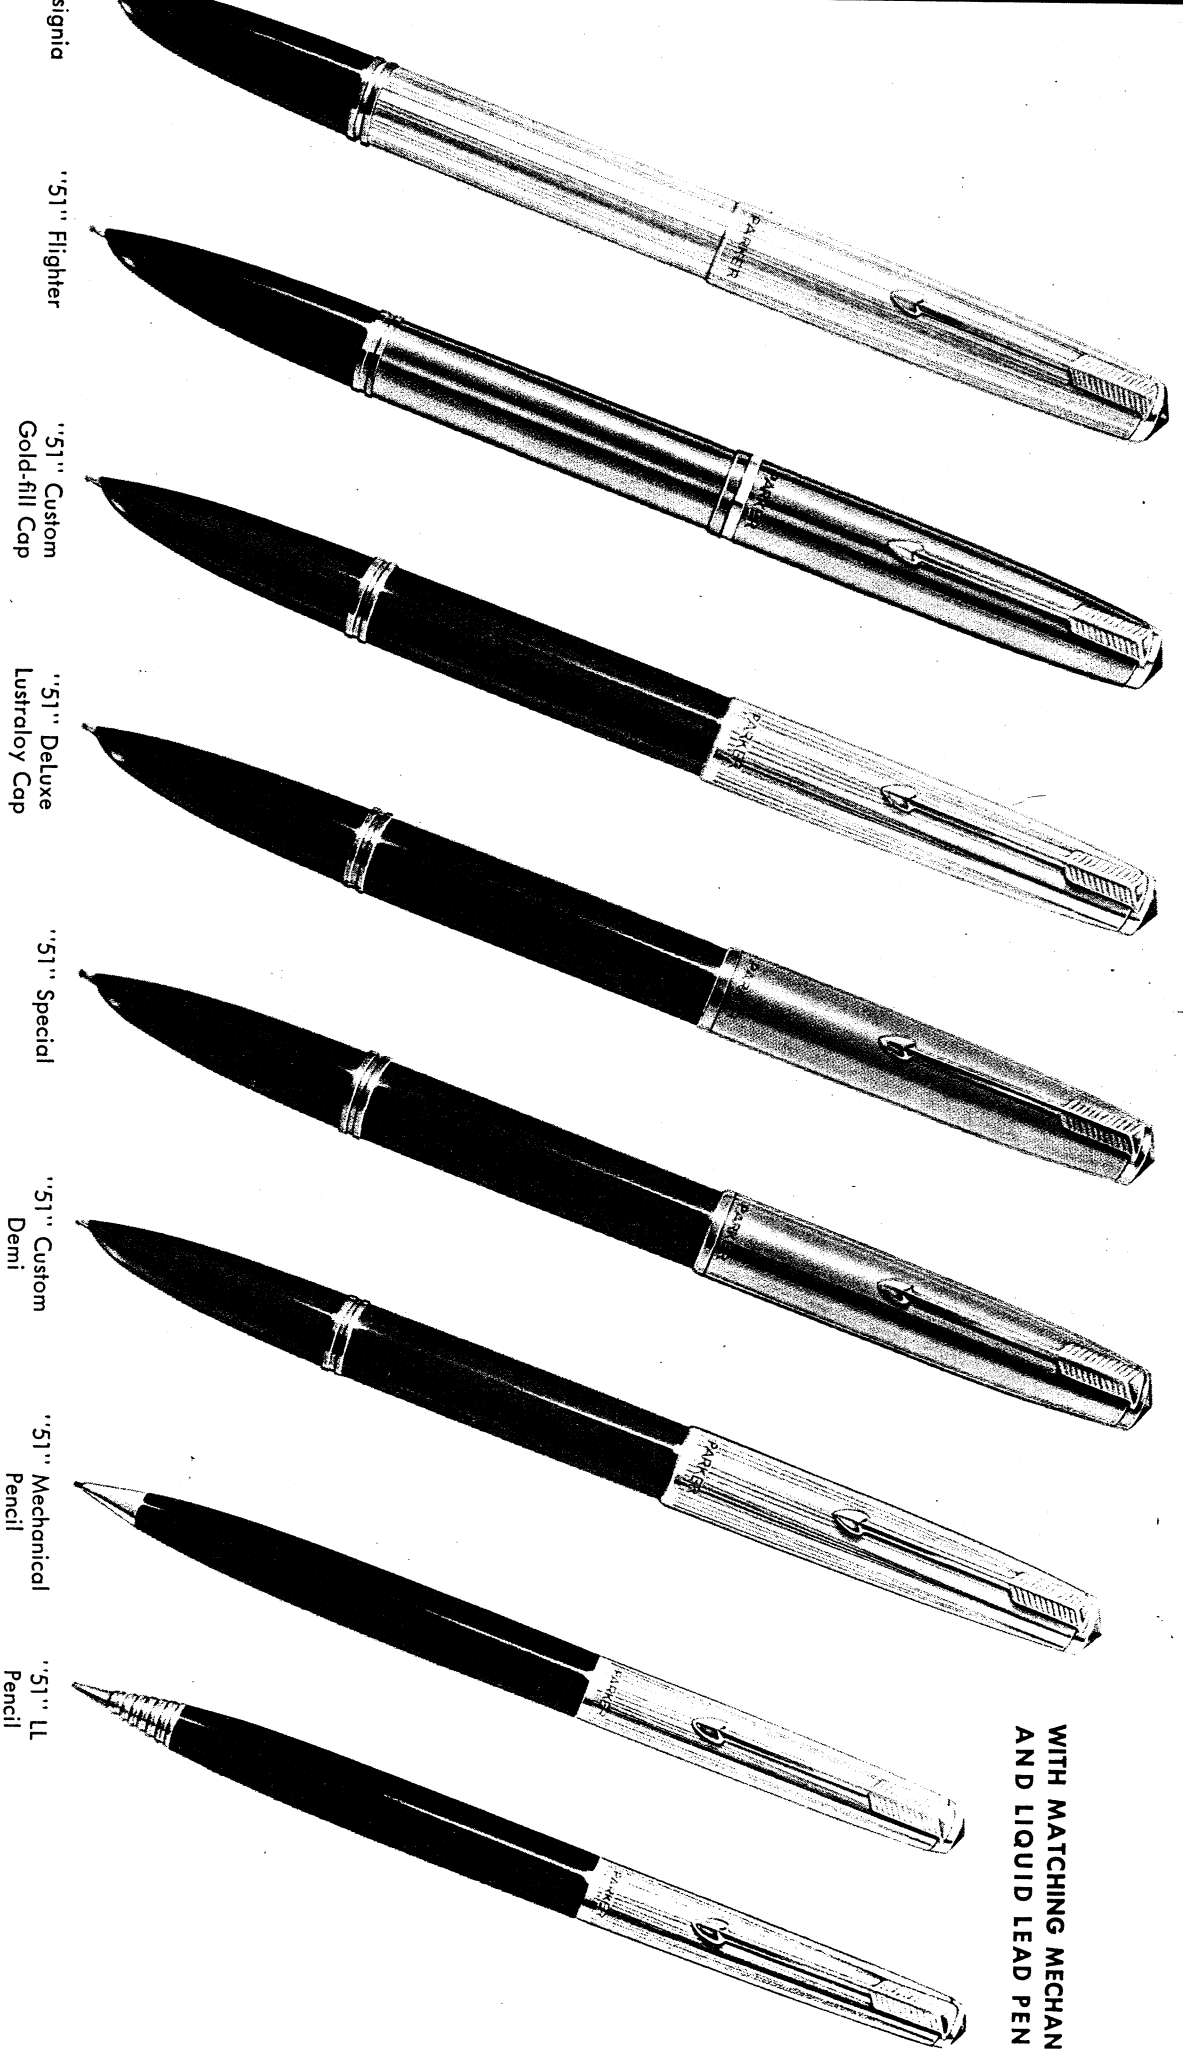

THE
Presidential...

A Parker masterpiece in precious metal, the "51" Presidential set has a barrel, cap and nib made of 14K gold. The set is available with matching mechanical or LIQUID LEAD pencil.

Parker 41

The Parker 41 has many features usually found only in pens costing much more. It has a cap of satin-smooth Parker Lustraloy, and a clip of beryllium copper which is heat-treated to assume a strong, springy grip. For easy filling, the Parker 41 features the famous Aero-metric ink system with Pi-glass reservoir that has a life expectancy of more than 30 years. The Parker 41 nib is made of Octanium, a special alloy of eight selected metals, and Electro-Polished to a mirror-smooth finish for years of effortless writing. With its precision construction and superb styling, the Parker 41 combines efficient, flawless performance with classic beauty.

New Parker SUPER "21"

The Parker SUPER "21" offers superior quality at a modest price. Parker's famous engineering and craftsmanship is evident in every part of the SUPER "21" . . . from its modern hooded design to the minute tolerances of its precision mechanism. It is truly a fine writing instrument . . . carefully designed to provide a long life of exceptional performance.

The cap of the Parker SUPER "21" pen is made of Parker Lustraloy and buffed to a satin-smooth finish. The Parker SUPER "21" pen fills quickly, easily with the Aero-metric ink system. The barrel and shell are made of Parker-developed, super strength X-100 plastic and polished to a smooth lustrous finish. The tubular nib is made of Ootanium, a special alloy of eight selected metals, tipped with precious Plathanium, and Electro-Polished to give you scratch-free, mirror-smooth writing.

Parker T-BALL Ballpoints

Parker T-BALL Ballpoints give you clear, smooth, non-skip writing on any normal writing surfaces... legal documents, glossy photographs, checks, postcards... even over unseen stains left by hands! This outstanding performance is made possible by the new and exclusive Parker T-BALL point. Unlike slick, solid metal ball points, the T-BALL is textured to give traction with the paper and is porous to feed ink *through* as well as *around* the ball! You get instant starting, a darker line and silk-smooth writing never before possible with a ballpoint.

Parker ballpoints are available in both cap-actuated and button-actuated models and all have the giant Parker ink cartridge that writes five times longer than ordinary refills.

Parker ◆ LL

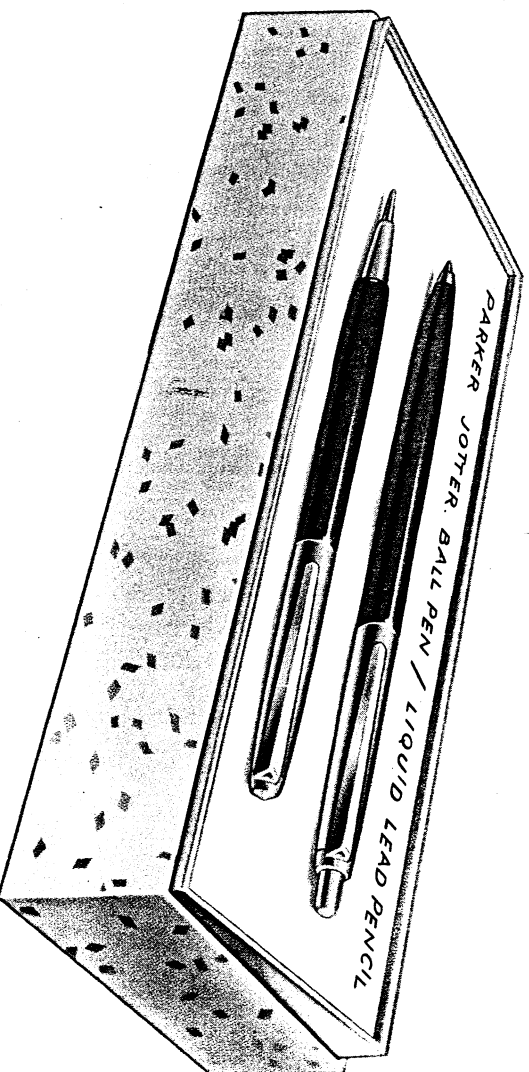

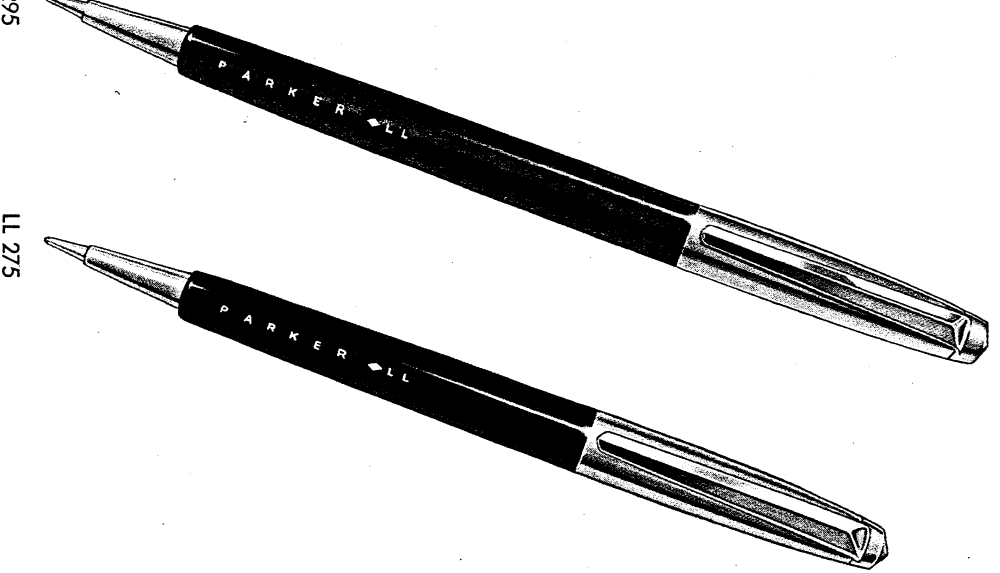

LIQUID LEAD

The Parker LIQUID LEAD Pencil never needs sharpening! It rolls a new and different kind of graphite on paper smoothly. No more smudging or smearing... no more broken leads.

The Parker LL Pencil is precision-made of quality materials to give trouble-free writing for years. Adjustable eraser is under the stainless steel cap.

Parker "PARDNERS"

A matched set for matchless ballpoint performance! The combination of a T-BALL Jotter Ballpoint and LIQUID LEAD Pencil gives you ballpoint economy with LL convenience. The Parker Ballpoint, with the giant ink cartridge that writes 5 times longer than ordinary refills, will outlast and outperform any other ballpoint. The Parker LIQUID LEAD Pencil, with the point that never needs sharpening and cannot break, writes a clean, erasable line. Adjustable eraser is under the stainless steel cap.

Parker Quink

the only ink containing Solv-X

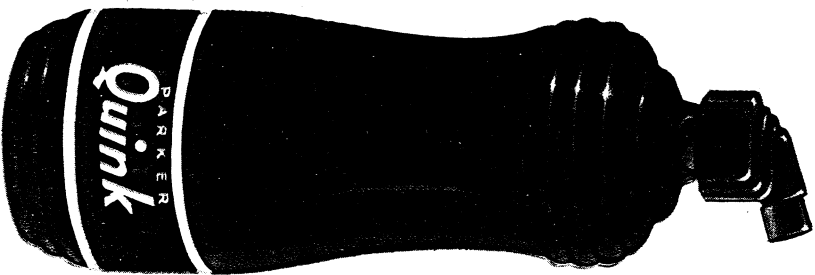

Parker Quink with the pen-protecting qualities of Solv-X improves the performance and prolongs the writing life of any fountain pen. Parker Quink cleans the *inside* of your pen as it writes... ends clogging. It flushes your pen of sediment left in it by ordinary ink, and its low acid content prevents injury or corrosion to metal and rubber parts. For permanence, use *Permanent* Quink. For safety, use *Washable* Quink.

Superchrome

Parker Superchrome ink is extra-brilliant and super-permanent. Its colors retain their bright hues as long as the paper lasts. It dries up to 3 times faster than ordinary inks... makes it possible to "write dry with wet ink"!

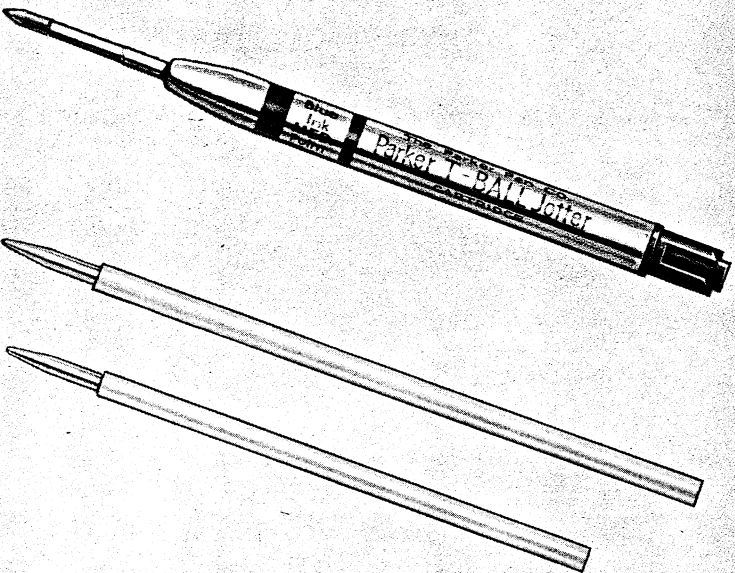

3 oz. Superchrome

Superchrome is available in the 3 Oz. size only, in all five colors.
